

Tree Measurer

Your new organisation

Sustainable Timber Tasmania manages Tasmania's public production forest for a vast array of environmental, social and economic values. Managing these forest values respectfully, innovatively and sustainably is at the heart of everything we do. As a Government Business Enterprise, we are committed to sustainably managing the forest estate, sustainably supplying timber and sustainably growing our business. Sustainable Timber Tasmania is proud to be recognised as a Tasmanian Employer of Choice. Our people are key to the success of the business and we invest in the development of a flexible, diverse, supportive and inspiring workplace.

Our Values

Respect	<i>we create safe places</i>
Responsibility	<i>we take ownership</i>
Growth	<i>we create sustainable value</i>
Excellence	<i>we make it happen</i>

Tree Measurer

The primary role of the position is to implement forest inventory programs and associated activities including coordinating and undertaking field inventories and research trial measurements and integrate the measurements into resource inventory systems. Undertake tasks such as boundary marking, eagle nest search and restoration planning as requested to achieve organisational targets.

Position Accountabilities and Selection Criteria

- Undertake forest resource inventories and research measurements in native forests and plantations for internal and external clients
- Maintain the operation of forest inventory equipment

Tree Measurer – Job Advertisement

- Process measurement data and related information using forest inventory information systems
- Undertake activities as requested by field staff e.g. boundary marking, eagle nest searches and restoration planting to assist the achievement of regional goals
- Participate in special projects as required to achieve team goals
- Maintain high standards in inventory and research to maintain effective inventory practice
- Support Senior Tree Measurer in inventory field audits

Desired Qualifications and Experience

- Forestry qualifications e.g. Certificate II in Forest Management or equivalent experience in forest resource inventory or related field
- Able to achieve Certificate II in Public Safety (Firefighting Operations)
- Aptitude for field work, using GPS and reading maps
- Experience using technical measurement equipment to take accurate measurements
- Numeracy skills and understanding of computer systems to report and analyse data
- Be physically fit and able to undertake field work in remote forest locations
- Participate in fire activities as required and where required pass the annual fire fighter health risk evaluation comprising both the medical assessment and the fitness test
- Hold a current manual driver's licence
- Be available for roster fire duties on weekends, public holidays, and outside normal work hours

How to apply

To apply for the position please click the "Apply Button". Your application should consist of a 1-2 page covering letter which outlines your experience, skills and knowledge as they relate to the Selection Criteria, a current resume and a copy of your relevant qualifications. All applications must be submitted by 26th April 2021. The successful applicant will be subject to a pre-employment medical and a National Police check.
