Safety and productivity at the Warra silvicultural systems trial
M.G. Neyland, J.E. Hickey and L.G. Edwards 1

The uniqueness of habitats in old eucalypts: contrasting wood-decay fungi and saproxylic beetles of young and old eucalypts
T. Wardlaw, S. Grove, A. Hopkins, M. Yee, K. Harrison and C. Mohammed 17

Aggregated retention and macrofungi: a case study from the Warra LTER site, Tasmania
G.M. Gates, D.A. Ratkowsky and S.J. Grove 33

Macrofungi in early stages of forest regeneration in Tasmania’s southern forests
D.A. Ratkowsky and G.M. Gates 55

Successional patterns of terrestrial bryophytes along a wildfire chronosequence in the wet eucalypt forests of southern Tasmania

Beetles and fuelwood harvesting: a retrospective study from Tasmania’s southern forests
S.J. Grove 77

Local government perception of the Tasmanian forest practices system
J. Field 101

Management of eucalypt plantations for profitable sawlog production in Tasmania, Australia
M.J. Wood, M.L. McLarin, P.W. Volker and M. Syme 117

Magnesium and potassium deficiency induced in glasshouse-grown Eucalyptus globulus
A.D. Mitchell and P.J. Smethurst 131

Guidelines for collecting and conserving dendrochronology samples from Tasmanian public reserves
