

# Trees and shrubs for special requirements

Species set out below have been chosen for their suitability for special and difficult conditions. They are outstanding plants for their respective situations and are recommended as basic, first selections. With experience, you will learn and have success with the wider range of species.

## Trees and shrubs for coastal environments:

Front line plants are those exposed to full salt spray and salt winds.

Second line will take some salt expose, but need protection of front line plants.

### Front line:

Acacia sophorae  
Albizia lophantha  
Banksia ericifolia  
Banksia integrifolia  
Banksia serrata  
Calocephalus brownii  
Casuarina stricta  
Coprosma repens ` variegata

Correa Alba  
Cupressus macrocarpa var  
lambertiana  
Eucalyptus gomphocephala  
Kunzea ambigua  
Leptospermum laevigatum  
Myoporum insulare  
Westringia fruticosa

### Second line:

Acacia cultriformis  
Acacia myrtifolia  
Acacia pycnantha  
Acacia retinodes  
Acacia terminalis  
Acer pseudoplatanus  
Banksia grandis  
Banksia spinulosa  
Bursaria spinosa  
Callistemon citrinus  
Callistemon macropunctatus  
Callistemon salignus  
Callistemon viminalis  
Callitris rhomboidea  
Casuarina glauca  
Casuarina littoralis  
Casuarina torulosa  
Correa `mannii`  
Correa pulchella  
Correa reflexa  
Crowea exalata  
Cytisus species  
Dodonaea viscosa var.purpurea  
Romsarinus officinalis  
Escallonia macrantha  
Eucalyptus amygdalina

Eucalyptus ficifolia  
Eucalyptus globulus  
Eucalyptus kitsoniana  
Eucalyptus leucoxydon var.rosea  
Eucalyptus ovata  
Eucalyptus pauciflora  
Eucalyptus viminalis  
Grevillea lavandulacea  
Grevillea miqueliana  
Grevillea robusta  
Hardenbergia violacea  
Leptospermum scoparium  
Lonicera nitida  
Lophomyrtus bullata  
Melaleuca armillaris  
Melaleuca diosmaefolia  
Melaleuca ericifolia  
Melaleuca hypericifolia  
Melaleuca nespohila  
Melaleuca squamea  
Melaleuca squarrosa  
Phormium tenax  
Eriostemon myoporoides  
Tamarix Gallica  
Salix caprea  
Sollya Herterophylla

## **Trees and shrubs for shaded areas:**

Acacia cardiophylla	Eucalyptus gomphocephala
Acacia howittii	Eucalyptus pulchella
Acacia longifolia	Eucalyptus risdonii
Acacia melanoxylon	Eucalyptus viminalis
Acacia pravissima	Eucryphia lucida
Acacia riceana	Grevillea conferifolia
Acacia sophorae	Grevillea dimorpha
Acacia terminalis	Grevillea lavandulacea
Athersopherma moschatum	Grevillea miqueliana
Banksia ericifolia	Grevillea rosmarinifolia
Banksia robur	Grevillea victoriae 'oleoides'
Banksia spinulosa	Hakea laurina
Callistemon citrinus	Hakea salicifolia
Callistemon macropunctatus	Hardenbergia violacea
Callistemon pallidus	Leptospermum scoparium
Callistemon paludosus	Ligustrum ovalifolium
Callistemon viminalis	Lonicera nitida
Coprosma repens 'variegata'	Melaleuca armillaris
Correa alba	Melaleuca ericifolia
Correa baeuerlennii	Melaleuca nesophila
Correa decumbens	Melaleuca squamea
Correa 'Mannii'	Melaleuca stypheliodes
Correa reflexa	Melaleuca thymifolia
Crowea exalata	Nothofagus cunninghamii
Dodonaea viscosa var. purpurea	Sollya heterophylly
Eucalyptus coccifera	Viburnum tinus
Eucalyptus crenulata	Westringia fruticose

## **Trees and shrubs for moderately wet areas (Frost hardy):**

Acacia dealbata	Eucalyptus ovata
Acacia melanoxylon	Eucalyptus perriniana
Alnus glutinosa	Eucalyptus rodwayii
Alnus jorullensis	Grevillea victoriae 'oleoides'
Banksia ericifolia	Leptospermum lanigerum
Banksia robur	Leptospermum scoparium hybrid
Bauera rubiodes	Melaleuca armillaris
Bottlebrushes	Melaleuca ericifolia
Casuarina cunninghamiana	Melaleuca squamea
Casuarina glauca	Melaleuca squarrosa
Eucalyptus camaldulensis	Melaleuca styphelioides
Eucalyptus crenulata	Poplars
Eucalyptus kitsoniana	

## **Trees suitable for firewood:**

Plants listed are relatively quick growing and produce a wood that burns well.

Acacia dealbata	Eucalyptus delegatensis
Acacia melanoxylon	Eucalyptus obliqua
Casuarina stricta	Eucalyptus Ovata
Eucalyptus amygdalina	Eucalyptus pauciflora
Eucalyptus camaldulensis	Eucalyptus regnans

## **Trees and shrubs suitable for animal fodder:**

Casuarina glauca  
Casuarina stricta  
Chamaecytisus proliferus  
Gleditsia triacanthos inermis  
Poplars

## **Trees and shrubs suitable for controlling erosion and help to provide soil stabilisation:**

Acacia dealbata	Casuarina glauca
Acacia longifolia	Casuarina littoralis
Eucalyptus camaldulensis	Eucalyptus globulus
Acacia sophorae	Eucalyptus nitens
Acacia melanoxylon	Pinus radiata
Acacia pravissima	Poplars
Bursaria spinosa	Poplars
Casuarina cunninghamiana	Schinus molle

## **Trees and shrubs to attract birds:**

The following are attractive primarily through their nectar producing flowers.

Banksia ericifolia	Grevillea's
Banksia marginata	Hakea luarina
Callistemon citrinus	Melaleuca armillaris
Callistemon macropunctatus	Melaleuca ericifolia
Callistemon salignus	Melaleuca incana
Eucalyptus leucoxylon var rosea	

## **Native trees to provide dense shade:**

Acacia melanoxylon	Eucalyptus nicholii
Banksia grandis	Eucalyptus obliqua
Casuarina stricta	Eucalyptus ovata
Eucalyptus camaldulensis	Eucalyptus rodwayii
Eucalyptus ficifolia	Eucalyptus urnigera
Eucalyptus globulus	Eucalyptus viminalis
Eucalyptus gomphocephala	Grevillea robusta
Eucalyptus gunnii	Melaleuca linarifolia
Eucalyptus leucoxylon var. rosea	Melaleuca styphelioides
